COMPANY PROFILE

MagiCook Magic Group Industrial established in 2009 with more than 15 years experience, has R&D center, complete d manufacture system and management system. Currently we have designed and produced various high-quality, high -value small kitchen appliances including electrical grill & griddle, multi-functional cooker, blender, snack maker, lunc h warmer etc. We produce critical components including temperature controller, inner wiring, PCB and Aluminum di e-casting parts by ourselves.

We are committed to our customers with premium value products that feature cutting-edge design and quality at more affordable price. We create value beyond expectations for customers.

Quality products and best services for our customers are always our priorities and key success factors.
We follow strict protocols regarding the quality from designing to manufacturing and continue to explore innovation and new market trends for creating the ideal kitchen life.
